

Installation Instructions
Roof Mounted Light Bars
07-14 Toyota FJ Cruiser

FJ Cruiser Roof Mounted Light Bars
TFJ5FLR/TFJ4RLR

Hardware Bag Contents:

- 4) 8mm x 2 ½ hex head bolts
- 4) 5/16 washers
- 4) 3/8 spacers

Recommended Tools:

13mm socket wrench

FJ Cruiser With Factory Roof Rack

STEP 1: Remove the four factory bolts from the two front roof rack brackets and discard.

STEP 2: Align the light bar brackets with the factory hole locations on the roof rack. **NOTE :** You can use the 3/8" spacers between the light rack and roof rack mounting positions to raise the light bar off the roof rack as an option.

STEP 3: Start a 8mm x 2 ½ hex bolt, 5/16 washer and 3/8 spacer (spacer optional see note above) in each bolt location and hand tighten.

STEP 4: After final positioning, torque each bolt location to 15-20 ft/lbs.

This concludes the light bar installation.

FJ Cruiser Without Factory Roof Rack

STEP 1 : Remove both rubber gaskets that are located on the roof top. This will expose the two factory bolts on each side.

STEP 2 : See steps 2-4 above. This concludes the light bar installation.
